## About

Hey there! I'm a tech-loving Real-Time Analyst by day and a national champion hip-hop dancer by night. Since building my first website at 11, I've been passionate about crafting web projects that prioritize seamless user experiences and engagement.

Let's make some digital magic together!

## Skills

React

TailwindCSS

Javascript

HTML

### Dashboard

Dynamic React Admin Hub: Empowering Data Management with Custom Themes, Interactive Charts, Integrated Calendar, and Agile Kanban Boards.

React

TailwindCSS

Javascript

HTML

## Promptopia

Promptopia is a full stack app crafted using Next.js and MongoDB. A website designed to discover, create and share creative AI prompts

React   Next.js   MongoDB  
Tailwind

## Work Experience

### Real-Time Analyst

2021 - Current

411 Locals

I'm currently a Real-Time Analyst / SME at 411 Locals, a Las Vegas-based SEO company, where I lead a team of fourteen. My main responsibilities include creating reports to enhance real-time visibility of KPIs and proposing innovative strategies to increase revenue and improve processes for the Customer Success Division.

### Help Desk Support

2020 - 2021

Dresden Partners

I was a remote Helpdesk IT Assistant for USAA, mainly I was responsible of troubleshooting with employees in regards of their equipment, software and tools they used to perform their activities.

### Sales Team Leader

2018 - 2020

AT&T

As an AT&T wireless sales team leader, I guided my team to success by managing KPIs and providing personalized coaching. Working closely with my supervisor and ACM, I ensured our efforts were aligned for optimal results.
